LOCK OPTIONS

As the primary locking option, Senator safes can be fitted with either a high-security electronic lock (Class B) or a key lock (Class A).

Dual locking is available on models 45–190. The primary lock can be supplemented by a combination lock or both a key lock and electronic lock can be fitted.

All locks are independently tested and are certified in accordance with the EN 1300 standard. Senator's high-security electronic lock – certified Class B – includes the following features, easily programmed by the owner:

- 1 master code and 1 user codes.
- Time delay of up to 99 minutes between lock being operated and door being opened.
- Opening window between 1–19 minutes.

A PRACTICAL, OFF-THE-SHELF SOLUTION

The Chubb safes Senator range is ready-to-use on delivery and can be fixed to the floor, as the required bolts are included. For installation in locations with stairs, the door can be easily removed, which reduces the safe's overall weight by approximately 15%. The stylish dark grey colour provides an attractive appearance while the lever handle enhances user comfort.

Authorised dealer

GRADE 1 PROTECTION IN FOUR MODELS

A variety of models, ranging from 32 to 190 litres, meets every storage and capacity need.

DUAL-CERTIFIED PROTECTION

The Chubb safes Senator range has been certified EN 1143-1 in burglary resistance for Grade I and EN 15659, LFS 30P for up to 30 minutes of fire resistance by the European Certification Board of Security (ECB-S).

ACCREDITED BY SECURED BY DESIGN

The Senator range meets police approved standards. Secured by Design is the flagship UK initiative to help 'design out' crime through the use of high quality, innovative products and processes.

Approved by the Association of Insurance Surveyors.
