

BUILT ACCORDING TO THE MOST STRINGENT ENVIRONMENTAL MANUFACTURING STANDARDS

# DUOFORCE

Engineered to fulfil the discerning safe storage demands of high-net-worth individuals

**Chubb**safes  
*Trusted the world over.*

Combined protection against burglary and fire,  
manufactured in the Netherlands.

## THE CHUBBSAFES DUOFORCE

A robust safe for high-end residential use, DuoForce is Grade III certified by the ECB-S for both burglary protection and 60 minutes fire protection of paper documents. Produced in Doetinchem, this sturdy safe is built according to the most rigorous quality, health & safety and environmental manufacturing standards.

MADE IN THE NETHERLANDS

Trusted the world over, Chubb safes solutions have been providing people with protection for their cash and valuables globally for almost 200 years. Originating in the UK in 1835, today the brand is universally available.

# Product prerequisites of a high-end safe storage solution

## WHAT DOES A SAFE NEED TO OFFER?

### PREMIUM SPECIFICATION

A specification that meets all insurance company requirements, providing sufficient value cover to protect existing and future treasures and cash worth.

### STRAIGHTFORWARD OPERATION

An easy, secure and hassle-free solution that is simply installed and has an ergonomic operation.

### VERSATILE RANGE

A flexible design to conveniently locate it where it is needed most, where it complements the user's lifestyle.

PEACE OF MIND FOR THE OWNER AND THOSE THEY CARE MOST ABOUT

**HIGH-NET-WORTH INDIVIDUALS** living in exclusive residential properties will require an equally high quality, certified safe to secure their expensive jewellery, most valuable items and any critical paperwork they wish to protect. In fact, most providers of home insurance policies with higher than average individually and collectively valued items and/or cash holdings, will impose the condition of a certified home safe as a pre-requisite to comply with insurance demands.

# Introducing

## THE DUOFORCE

DuoForce is independently tested and endorsed to meet the requirements of European Security standard EN 1143-1. This level of burglary protection is universally recognised by Insurers throughout Europe and beyond, to ensure the items you value most are secured.

Furthermore, DuoForce is tested by an independent, ISO 17025 accredited laboratory according to the NT Fire 017 – 60 Paper standard. The one-hour fire resistance ensures that should you experience the devastating effects of a house fire and the safe be engulfed in flames, all valuable documents such as title deeds, contracts and birth certificates will be retrievable once the all clear is given.

The resulting certifications are issued and managed by ECB·S, widely acknowledged as Europe's leading certification body for safes, cabinets and strong rooms.

**Available in 5 sizes** and capacities. All sizes can be trusted to protect their contents not just against unauthorised forced burglary attack, but also against the extreme temperatures experienced during fire.

Considering that all certified safes weighing less than 1,000 Kg must be correctly anchored for insurance coverage, we always advise you call in specialists. Chubb safes channel partners are an international network of distributors and trained installers who will deliver, position and anchor a safe professionally and accurately.

## DESIGN

Ergonomic soft-touch handle and a range of shelves to maximise storage capacity. Each option has **class leading low weights** compared to other Grade III certified safes from other manufacturers.

## LOCKING

Supplied with one key lock as standard, the option of a factory fitted electronic lock or optional two locks are also available. This gives **flexibility to customise** how DuoForce can be secured and operated.

## INSURANCE RATING

The product construction and certification provide an **excellent cash and valuables Insurance rating**.

As an example, this would be £35,000 valuables or £350,000 cash in the UK.

## WHAT MAKES DUOFORCE IDEAL FOR HIGH-END RESIDENTIAL?

**Independently tested** by the Institute Giordano and by Gryfit Laboratories, DuoForce Grade III is **doubly certified** by the ECB-S and thus satisfies the demands of all insurance companies.

The smaller footprint of the M-40 model has been designed specifically to allow for easy positioning within space constrained areas in the home i.e. dressing room, home office enabling simpler concealment and minimising the chance of discover.

Certified by DEKRA

## MANUFACTURING CERTIFICATIONS

Sustainable development goals are increasingly important both to Chubb safes and to a wider audience.

We list sustainability very highly on our agenda, setting high standards for our products, our employee working conditions and for the environment in which we live.

DuoForce is manufactured under the most stringent of production environments in our advanced Doetinchem production facility, a factory that is ISO certified by DEKRA and demonstrates commitment to Gunnebo Sustainability Approach.

---

**ENVIRONMENTAL GUARANTEE**

ISO 14001: Environmental Management System certification makes sure that every safe is manufactured in a facility operating an environmental control policy. Materials and processes are closely managed and continually reviewed to reduce their impact upon the environment. All environmental issues relevant to operations are considered. Air pollution, water and sewage issues, waste management, climate change mitigation and adaptation are all regulated to ensure resources are used efficiently. Everyone purchasing a DuoForce safe does so secure in the knowledge that they are buying a product with the minimum amount of environmental impact.

---

**MAINTENANCE OF A HEALTH & SAFETY STANDARD WITHIN PRODUCTION**

ISO 45001: Occupational Health & Safety System guarantees that every action, every process within production is risk managed and fully compliant with health and safety regulations. When buying DuoForce, rest assured that it has been made with due consideration to those making the product. Their welfare and safety are at the forefront of our thinking.

---

**PERFORMANCE GUARANTEE**

ISO 9001: Quality Management System certification means every safe is built within a strictly controlled and monitored process. This, combined with our ECB-S certification, provides the customer with the confidence they deserve.

---

The dedicated European manufacturing approach is not only environmentally more friendly, it also ensures a more efficient, shorter and better supply chain for customers in Europe.

## CHUBBSAFES DUOFORCE AT A GLANCE

The ideal, high end storage solution with both 60 minutes fire-resistance and certified grade III burglary certification, satisfying insurer needs.
